ECTME2-II	Spare in the Air Warranty - Year 4 or 5	\$ 455.00

<sup>\*</sup>All monthly payments are based on a business lease for 60 month and subject to OAC.

# PEACE OF MIND COMES STANDARD

## **Epson Standard Depot Warranty**

All Epson printers come with a one-year standard manufacturer's warranty. Many problems can be resolved over the phone. When this is not possible, defective printers can be dropped off or shipped to your nearest Epson depot for repair. Upon receipt of the printer, Epson will then perform the repairs and ship the printer back to you.

## **Epson Spare-in-the Air (SITA)**

The upgraded Spare-in-the-Air warranty is an affordable choice when you cannot afford to have your label printer out of service for longer than 24 hours. This quick, overnight replacement program bridges the gap between the turnaround time of depot repair and the higher cost of onsite service.

Customers using label printers alongside manufacturing lines can't afford printer downtime. The Spare-in-the-Air warranty system brings assurance to industrial customers, such as bakeries producing baked goods each day, that label production can continue.

## **BarTender by Seagull Scientific**

BarTender by Seagull Scientific BarTender 2016 by Seagull Scientific offers label and barcode design and printing features such label templates, label design wizards, included shapes and symbols, and barcoding and serialization capabilities. 30 Day Free Trial Available at **DuraFastLabel.ca/bartender** 

SKU	Printer / Ink	CAD Price
BT16-BSC	Bartender - Basic	\$ 360.00
BT16-PRO	Bartender - Professional	\$ 695.00

#### **NiceLabel Barcode Software**

NiceLabel 2017 Designer Pro comes with templates, wizards, barcodes, and symbols as well as advanced designed features. Not only can you quickly create a compliant barcode or label, this label design software can be used to design RFID labels. 30 Day Free Trial Available at DuraFastLabel.ca/nicelabel

NLDEXX001S	NiceLabel - Basic	\$ 350.00
NLDPXX001S	NiceLabel - Professional	\$ 685.00

# **Roll to Roll System for Epson TM-C3500 printer**

The rewinder and unwinder for Epson TM-C3500 printers are used to manage rolls of media up to 5" (127mm wide) having an outside diameter up to 10" (254mm). Units are equipped with adjustable core holder 1.57" (40mm) - 4.64" (118mm).

To guarantee an aligned media path in the system, the junction plate is used to connect the rewinder and unwinder together.

An external power supply 100/240VAC - 2.5A at 24V allows an electronic circuit to provide, through the tension arm, the adjustment of the rotation's speed and rotation's direction. A 2A fuse is used as protection.

SKUs	Printer / Ink	CAD Price
EPS35-JPL	Epson TM-C3500 Junction Plate for use with Unwinder & Rewinder	\$ 199.00
ASS1111-S0	Epson TM-C3500 Label Unwinder with 3" Core Holder	\$ 999.00

UNWINDER-BG	Core holder for TM-C3500	\$ 67.95

# **Types of Labels**

## **Label Orientation**

#### **Continuous Roll**

When using continuous label rolls, you can use the cutter to cut the desired label length. So, if you use the  $4 \times 100$  feet continuous roll, you can print  $4 \times 1$ ,  $4 \times 2$ ,  $4 \times 6$ , or  $4 \times 12$  labels, as required for your business. The only difference between the die cut and the continuous roll labels is that they will have square corners.

#### **Die Cut Rolls**

Die Cut usually means that the label is cut out with a cookie cutter to create the shape that you want the label to be. Die cut may mean your label or tag will have rounded corners as opposed to square corners (which are often called butt or kiss cut). One advantage of die cut is that, in most cases, the label is easier to apply. Our Die Cut labels are in a variety of different sizes for all your label needs – Circle, Ovals, Square and Rectangle.

#### Fan Fold Labels

Fan-fold labels make a neat concise stack and are easy to store, handle and ship. No special equipment is required to dispense the fan-fold labels into the printer.

#### **UP Labels**

UP Labels are also categorized by the number of labels across the width of the roll.1 UP labels take up the full width of the roll. 2 UP labels are labels that cover half of the width of the roll, while 3 Up labels take UP a third of the roll and have three labels across the roll.

The width is the measurement spanning across the width of the label roll and the height is the measurement off the label on the roll as it winds around the label roll.

# Tags and Wristbands...

## **High Gloss Tags and Name Badges**

High gloss tag stock is made from coated, heavy paper and does not have an adhesive backing. With their smooth, glossy surface and bright white finish, these high gloss tags are ideal for printing color event tickets, name badges, security badge, retail tags, shelf tags, marketing materials, cards, and other items requiring a tag or badge.

## **Epson Wristbands**

Improve patient safety or event security with ondemand, fast-drying custom wristbands. DuraFast Label Company's blank wristbands can be personalized for virtually any purpose including identification, special events, beer and wine gardens, amusement parks, VIP access, spas and resorts, and more.

#### **PROCESS**

STEP 1

Remove backing from fitting tab (1)

STEP 2

Place the Dura-Band around wrist

STEP 3

Remove backing from fitting tab (1)

STEP 4

STEP 5

Affix closure tab(2)

#### SKU 819016

## SKU 819019

With a smooth surface and matte finish, matte tags are made from coated paper and do not have adhesive on the back. Our Epson matte tags are often used to print smudge-free name tags, security IDs, marketing materials, tabletop menus, inserts, retail tags, shelf tags, cards, and scorecards. The tag roll is made of Non-adhesive, perforated Matte inkjet printable tag stock for printing color-coded or photo ID badges for trade shows and meeting attendees and visitor badges.

#### **DuraFast Recommends:**

## Labels Engineered for the Epson TM-C3500

DuraFast Label Company manufactures labels specifically for the Epson TM-C3500 label printer and its pigment inks. The labels listed here are optimized for this printer and available in a variety of sizes and shapes. Custom labels are also available.

# **Matte Paper Labels**

#### Standard Continuous Label Roll

# DuraFast<sup>®</sup> Matte Labels Epson TM-C3500 & TM-C3400

Matte labels are paper-based labels with a smooth, white matte surface. The general purpose, permanent adhesive adheres beautifully to cardboard, metals and most plastics. DuraFast matte paper labels are highly water and abrasion resistant.

Matte labels are popular because of their versatility. They can be luxurious or natural looking depending on the design, use, and placement.

# MATTE BOPP LABELS

Standard 1UP Die-Cut Fan Fold Label

# DuraFast<sup>®</sup> Matte BOPP Labels for Epson TM-C3500 & TM-C3400

Matte BOPP stands for Biaxially Oriented Polypropylene, a type of polypropylene film that has been stretched and extruded. The BOPP process results in a strong material that is easy to coat, print, and laminate. The matte polypropylene film (synthetic) labels offer water, grease, oil, flex-crack, and puncture resistance. In addition, these labels won't shrink or wrinkle with changes to the environment and they result in crisp, clear text and images. The Epson TM-C3500 makes it easy to label your products and the matte BOPP finish adds a premium touch to your label.

# CHEMICAL LABELS

Standard 1UP Die-Cut Label Roll

# DuraFast<sup>®</sup> Chemical Labels for Epson TM-C3500 & TM-C3400

Businesses need to meet the GHSBS5609 certification to ensure that any chemical or drum labels are able to last in unforgiving environments, particularly those that are submerged underwater for extended periods of time. DuraFast chemical labels have been GHSBS5609-certified by Smithers Pira when printed with Epson color label printers. Under GHSBS5609 certification, labels must be able to withstand a three-month saltwater submersion.
